

BLADES FOR PORTABLE BAND SAW MACHINES

Blades for portable band machines are available in CARBON, HARD-BACK, and H.S.S. BI-METAL. Carbon and Hard-Back are for use on mild steel and where an economy blade is of prime importance. H.S.S. BI-METAL is designed for longer blade life and for tougher cutting applications.

All 3 types are available in coil lengths and welded to length.

LENGTH	WIDTH	THICKNESS	STD. RAKER
3' 8 ⁷ / ₈ "	1/2"	.020	10-14-18-24
4' 5 ³ / ₄ "	1/2"	.020	10-14-18-24
5' 4 ¹ / ₂ "	1/2"	.020	10-14-18-24
